

MIDSTREAM

Since 2004, the ProTorque Energy group of companies has been providing a range of innovative and reliable services and products for oil and gas operators across the USA, Canada and internationally.

Building on our foundation as a casing running company, ProTorque has expanded to offer a variety of associated services, including our Midstream Division. We are continually developing new technologies and value-added solutions that save our clients in the oil and gas sector time and money.

Dependable Service

Engaging ProTorque Midstream to deliver independent midstream services can help increase operational efficiency, reduce costs and safeguard your business, freeing your team to concentrate on core priorities

Experienced Team

The ProTorque team has extensive experience serving the needs of leading oil and gas operators, with proven leadership and established processes. We provide fit-for-duty crews and offer a full complement of services at all of our locations.

Safety Focussed

ProTorque is committed to excellence in everything we do and our safety record is second to none. We are COR and Complyworks certified, as well as PEC and ISNetwork rated, providing you with peace of mind.

ProTorque Guarantee

At ProTorque, we subscribe to a set of core values that guide our behaviours, ensuring that our services are executed to the highest standards, backed by our company Guarantee:

As our business partner, your success is our highest priority, while offering 24/7 support.

Proven Track Record

With nearly two decades of experience under our belt, ProTorque's track record speaks for itself. Our extensive roster of clients includes companies such as Exxon/XTO, Pioneer, Shell Oil, Conoco Phillips, Ovintiv, Devon Energy and Colgate Energy, among many others.

COMPREHENSIVE SOLUTIONS
